We should discuss the details and best approach to investigating these issues (i.e, I thought this was worth doing last year - 12 months ago).

Why we would wait for an intern (while continuing to inspect nicotine shops) doesn't sound strategic to me.

Tomorrow I'll search for the LA TIMES article from last year that clearly states DTSC failure to properly track huge amounts of hazardous waste ... and presumably their failure continues to this day.

DTSC's response at the time was similar to Keith's plea (re Exide failure) "... She's only human." Re poor tracking of haz waste they said "... yeah but 80-90% of the waste was tracked appropriately". The article mentioned some huge tonnage that sounded like a lot to me. Pitiful.

We got turned down by GRO interns which is a very competitive national program, but I thought there might be other regional opportunities for interns?

Doug and Joel, do you think we could get an intern to start our data mining project? Is HR or OCR doing any summer intern recruitment? R6 has a couple of student interns working on their data mining project.

Subject: Webinar information for Mon 5/11 R6 Data mining presentation

Here is the webinar and call-in information for the R6 Data Mining presentation

The following is the webinar information for Monday's presentation:

Date: May 11, 2015

Time: 11am-3pm CST

12pm – 4pm EST

Adobe Connect URL: <https://epa.connectsolutions.com/r59n7me2k1b/>

Call in number: 866-299-3188

Participant code: 214 665 9732

THANK YOU R6!!!
